

THE AIMS OF TtFT ARE:

To train national active experts/champions in diabetic foot disease within a global region to deliver effective, well-structured, sustainable training programmes with demonstrable outcomes.

THE OBJECTIVES OF TtFT ARE:

- For each of the delegate teams to organise and implement a Step by Step(SbS) training programme for their own country (educational, organisational and public relations) within 3 years of attending a TtFT course
- To identify and find solutions for their needs and barriers to implementation
- To evaluate the delivered course by collecting and disseminating outcomes of the programme (national/regional/ international)
- To train trainers from their own communities to deliver SbS training programme
- To encourage, support and develop an ongoing mentorship programme for existing and new diabetic foot champions in this region.
